STEPS									
What does the person (or group) typically experience?	1. Open App / Service Portal	2. Enter Journey Details	3. Choose Ticket & View Fare	4. Payment	5. Ticket Generation	6. Receive Ticket Confirmation	7. Travel & Validate Ticket	8. Trip History & Rating	9. Future Offers & Recommendations
	A passenger opens the Service Portal / Mobile App to book a metro ticket.	The passenger enters source, destination and travel details.	The system shows available ticket types and calculates the fare.	The passenger chooses a payment method and completes payment.	System generates a QR code based metro ticket.	Passenger receives ticket confirmation via screen, email and SMS.	Passenger validates ticket at metro station using QR code.	Passenger can view trip history and rate the travel experience.	System shows personalized offers for future travel.
Interactions What interactions do they have at each step along the way?	Tap on app icon / Open portal and select 'Book Ticket'.	Select stations, travel date, time, passenger type and quantity.	View fare details, select ticket type (One Way / Return / Smart Card).	Select UPI / Card / Wallet and enter payment details.	System processes payment and generates QR ticket.	Confirmation on screen and email / SMS with ticket and details.	Scan QR at AFC gate for entry and exit.	View past trips and rate the journey.	View offers and receive notifications for discounts.
Things (Touchpoints) What digital touchpoints or physical objects would they use?	Mobile App / Service Portal on phone or desktop.	Search fields, station list, calendar, passenger type selector.	Fare summary, ticket options screen.	Payment gateway page, UPI app, Card details form.	QR code on screen / PDF ticket.	Email inbox, SMS on mobile, Notification in app.	QR scanner at entry/exit gate.	Trip history screen, rating stars, feedback form.	Email offers, notifications, in-app banners.
Places (Where) Where are they?	At home, office or anywhere with internet.	At home / office while planning travel.	On mobile / desktop before payment.	At home / office or on the go.	On mobile screen.	On mobile / email.	At metro station (Entry / Exit gates).	Anywhere after completing trip.	Anywhere.
People (Who) Who do they see or talk to?	None	None	None	Payment Gateway Service	System (Automatic)	System (Automatic)	Station Staff (If any assistance required)	None	None
Goals & Motivations At each step, what is a person's primary goal or motivation? ("Help me..." or "Help me avoid...")	Help me book a metro ticket quickly.	Help me find the right route and details.	Help me know the fare and best ticket option.	Help me pay securely and conveniently.	Help me get my ticket instantly.	Help me receive confirmation and ticket details.	Help me travel smoothly without any hassle.	Help me review my trips and share feedback.	Help me get best offers for future travel.
Positive Moments What steps does a typical person find enjoyable, productive, fun, motivational, delightful, or exciting?	Easy access to app / portal.	Simple station selection.	Instant fare calculation and clear options.	Fast and secure payment.	Instant QR ticket generated.	Immediate confirmation via email & SMS.	Quick entry and exit at gates.	Easy to review and track trips.	Getting discounts and offers.
Negative Moments What steps does a typical person find frustrating, confusing, angering, costly, or time-consuming?	App not loading or slow response.	Confusing station names / wrong selection.	Hidden charges or unclear fare rules.	Payment failure or delays.	QR code not generating.	Not receiving email / SMS on time.	QR not scanning at gate.	Unable to find past trips.	Irrelevant offers or too many notifications.
Areas of Opportunity How might we make each step better? What ideas do we have?	Improve app speed and availability.	Auto-suggest stations and recent routes.	Show fare rules clearly with transparency.	Add more payment options and faster processing.	Ensure 100% QR generation success.	Instant alerts and backup notification channels.	Improve QR scanner accuracy and support.	Add filters and easy export for trip history.	Personalize offers based on travel history.
Exit / Extend What do people typically experience as the process finishes and what happens after the experience is over?	User is ready to start booking.	Journey details are set.	Ticket option selected.	Payment completed successfully.	Ticket generated and ready to use.	User has ticket confirmation.	Journey completed successfully.	User keeps track of trips.	User receives ongoing offers for future travel.
