

PROBLEM-SOLUTION FIT CANVAS

Project: Metro Ticket Generating System (ServiceNow)

- CS Customer Segment(s)
- J&P Jobs & Problems
- AS Available Solutions
- TR Triggers
- BE Behaviour
- RC Root Cause
- CH Channels

1. CUSTOMER SEGMENT(S)
Who is your customer?

Our primary customers are **daily metro commuters who travel using the metro for work, education or other personal needs.**

- Daily Metro Commuters
- Students
- Working Professionals
- Occasional Travelers
- Metro Administrators (Internal Users)

6. CUSTOMER CONSTRAINTS
What constraints prevent your customers from taking action or limit their choices of solutions?

- Long queues at ticket counters during peak hours
- Limited time for travel and ticket purchase
- Cash payment not always convenient
- Risk of losing paper tickets
- Not aware of digital ticketing options
- Dependence on network or internet connectivity
- Compatibility issues with older mobile devices

5. AVAILABLE SOLUTIONS
Which solutions are available to the customers when they face the problem or need to get the job done?

Available Solution	What Customers Tried	Pros	Cons
Manual Ticket Counter	Buying paper tickets at counters	Easy to understand for all age groups	Long queues, time consuming
Smart Card	Using metro smart cards	Reusable, fast access	Card balance management
Third-party Apps	Using other apps for ticket booking	Digital convenience	Extra apps, less integration
Our Solution	Metro Ticket Generating System (ServiceNow)	Integrated, digital, QR based, secure	Needs awareness & internet access

2. JOBS-TO-BE-DONE / PROBLEMS

J&P RC BE

Which jobs-to-be-done (or problems) do you address for your customers?

- Purchase a metro ticket quickly and easily
- Avoid long waiting time at ticket counters
- Pay securely and conveniently
- Get a valid ticket for smooth entry
- Access ticket history and booking details anytime

7. BEHAVIOUR
What does your customer do to address the problem and get the job done?

- Go to ticket counter and buy paper ticket
- Use smart card to travel
- Search online for metro routes and fare details
- Use digital payment apps for transactions
- Ask staff or peers for fare and route information

9. PROBLEM ROOT CAUSE
What is the real reason that this problem exists?
What is the back story behind the need to do this job?

- Traditional ticketing process is manual and outdated
- High passenger volume leading to congestion
- Lack of fully integrated digital ticketing system
- Need for cash handling and insufficient automation
- Increasing demand for contactless and paperless solutions

3. TRIGGERS
What triggers customers to act?

- Seeing long queues at ticket counters
- Delay in metro due to time taken in ticket purchase
- Promotions about digital ticketing
- Recommendations from friends and family
- Need for contactless and secure travel experience

8. CHANNELS OF BEHAVIOUR

8.1 ONLINE

- Search engines (Google, Bing)
- Metro website and mobile app
- Social media platforms
- Online reviews and feedback
- Email and SMS notifications

10. YOUR SOLUTION
If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality.
If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour.

4. EMOTIONS: BEFORE / AFTER
How do customers feel when they face a problem or a job and afterwards?

Before (Problem)	After (Our Solution)
- Frustrated due to long queues - Worried about missing train - Uncertainty about fare - Inconvenient cash handling	- Happy with quick booking - Confident with confirmed ticket - Satisfied with cashless payment - Peace of mind with digital ticket

8.2 OFFLINE

- Ticket counters and metro stations
- Metro maps and route boards
- Customer service desks
- Posters, brochures and banners
- Word of mouth from peers

Metro Ticket Generating System (ServiceNow)

- Online ticket booking through Service Portal
- Fare calculation and secure digital payment
- QR code based digital ticket generation
- Easy entry through QR scanning
- Ticket history and booking management
- Email/SMS confirmations and notifications
